Hey Eric: Thanks for the heads-up. Aaron Keatley contacted Kurt Thiede, our chief of staff, this evening about Parchment and the news came down to Linda Holst and me. I understand a do not drink order has gone out and MDEQ is planning next steps (interim and long-term). I hear they have multiple wells. Obviously, it would be good to know if the PFAS in all of the wells or can they shut down the bad one.

Let's touch base in the morning.

Tom

Tom, FYI. We had a high PFAS result in the city of parchment. Small system. I can call and brief you tomorrow morning.

Eric
